

## Before you come...

Make sure you have no COVID-19 symptoms (cough, fever or chills, shortness of breath, fatigue, sore throat, loss of taste or smell, gastrointestinal symptoms)

Based on your clinic location, be prepared to wait in your car until we're ready to see you.

## At our clinic...

Please wear a proper face mask or covering over your nose and mouth.

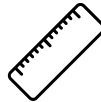

We will check your temperature.

Hand sanitizer will be available.

Fully vaccinated partners/spouses, with proof of vaccination, may be present for obstetrical ultrasounds, inseminations, and IVF procedures. Unfortunately, children cannot come to your appointment.

Maintain a six foot distance between you and others.

Answer our questionnaire honestly.

Please be patient as we fully sanitize our space between each patient.

## When you're leaving...

You will exit out a different door than you came in.

Please wash your hands or use hand sanitizer as you leave.
